

WellnessPro Statement of Average Gross Compensation of North America Supervisors for 2009

WellnessPro offers its Distributors an opportunity to achieve a lifetime of better health through its scientifically advanced weight-management and nutrition products. While many of our Distributors join WellnessPro simply to enjoy the benefits of better health - others want to share their results and take advantage of the business opportunity. WellnessPro allows you to work part-time and earn a supplemental income - or focus solely on your WellnessPro Independent Distributorship and build your own business. The level of achievement is entirely up to the individual. A Distributor earns profits by buying WellnessPro products at wholesale and reselling them at retail. Should a Distributor want to increase his or her involvement in the business and enjoy the possibility of higher levels of income, he or she may sponsor others into the business and develop an organization.

WellnessPro Distributors who reach the rank of Supervisor and above – also qualify for additional compensation. This compensation is paid by WellnessPro and is based upon the sales production of those who have been sponsored directly and indirectly. The annual gross compensation paid by WellnessPro to all North American Distributors and above during 2009 averaged \$12,543.21. An “Active” Supervisor is defined as those who generated at least 400 points of volume once in 2009 after becoming Supervisor. The annual gross compensation paid by WellnessPro to Active Supervisors during 2009 averaged approximately \$15,482.55.

The amounts above are *in addition to and do not include* profits earned on the resale of products to consumers or other Distributors.

The figures stated above are not a guarantee nor are they a projection of a typical Distributor’s earnings or profits. Like any other independent business, the achievement or failure of a Distributor depends solely upon the skill set, commitment and desire to succeed. The same WellnessPro opportunity to earn is always available to each and every Distributor.
